The last day on the job – is also the first day in one of the most challenging changes in a person's life. Many close to 60 are in great doubt and unsure of what to do on the journey for the next 20 -30 or 40 years. Inspiration, counseling and coaching is needed. That's what the Learning Partnership SENIOR CAREER is all about.

Your senior career is the one you have late in your life - from around 60 and for the rest of your life. In that case your 'senior career' covers the work you do both in the last years of your full-time job and the work – paid or unpaid – you do in all the following years. For a growing number of seniors 'senior career' has replaced the outdated expression 'retirement'.
